

# Polycom® VSX™ 6000

## Features and Benefits

### Audio

Polycom StereoSurround™	<ul style="list-style-type: none"><li>• Wideband audio projected in stereo, from left and right auxiliary speakers</li><li>• StereoSurround support with a single tabletop microphone</li><li>• Easily decipher multiple, simultaneous conversations</li><li>• For the most realistic audio experience</li><li>• Just like being in the same room!</li></ul>
Siren™ 14 Wideband Audio	<ul style="list-style-type: none"><li>• 14 kHz crystal clear audio</li><li>• Eliminates fatigue associated with straining to hear every word</li><li>• CD-quality sound for dynamic audio performance</li><li>• Superb clarity to hear the subtleties of every word</li><li>• Included on every system</li></ul>
Integrated Speaker	<ul style="list-style-type: none"><li>• Integrated mid-range speaker assures delivery of high-quality audio</li><li>• User adjustable settings enable the best acoustics for the room-size</li></ul>
Audio Error Concealment	<ul style="list-style-type: none"><li>• Reduced audio drop-out on busy IP networks</li><li>• Smooth, consistent verbal communications without interruptions</li><li>• Corrects audio from any system seamlessly</li><li>• Activates automatically, only when needed</li></ul>

### Video

Standards based H.264 Video	<ul style="list-style-type: none"><li>• Use less bandwidth to conduct video calls</li><li>• Unparalleled video quality for lower line rate applications</li><li>• More bandwidth is available for other business</li><li>• Cost savings to any organization</li></ul>
Video Error Concealment	<ul style="list-style-type: none"><li>• Reduced video drop-out on busy IP networks</li><li>• Smooth, continuous video without interruptions</li><li>• Maintain active face-to-face contact</li><li>• Accomplish meeting objectives without worrying about the video integrity</li><li>• Activates automatically, only when needed</li><li>• Works in all video protocols, including H.264</li></ul>

### Usability

Small Footprint	<ul style="list-style-type: none"><li>• Integrated PTZ camera and speaker are ideal for small conference rooms</li><li>• Mountable using Polycom VSX plasma/wall mounting bracket</li><li>• Quick, easy set-up with minimal hardware pieces</li></ul>
Built-in IP Network Connectivity	<ul style="list-style-type: none"><li>• Seamless integration of video conferencing in environments with an IP network</li><li>• Integrated 10/100 Auto switching connector minimizes setup time</li><li>• Supports up to 768 kbps for even the most demanding user</li><li>• Quality of Service implementations ensure performance integrity</li></ul>
SoundStation VTX 1000™ Integration	<ul style="list-style-type: none"><li>• Use the SoundStation VTX 1000 as the microphone for the video system and eliminate the VSX 6000 microphone</li><li>• Add an audio call to a video conference with the SoundStation VTX 1000</li><li>• Maximize the value of audio and video equipment investments when used together</li><li>• Remarkable voice pickup range with the SoundStation VTX 1000 microphones</li><li>• Video dial, call hang-up and call redial from the VTX keypad</li></ul>

# Polycom VSX 6000 Features and Benefits

Expanded Communication and Collaboration Tools	<ul style="list-style-type: none"><li>• People+Content™ IP software requires only an IP network connection</li><li>• Standards based H.239 ensures interoperability in the industry</li><li>• See the presentation and the speaker at the same time</li><li>• Closed Captioning support increases usability for hearing impaired participants</li><li>• Web Streaming on or off the call means you can view the meeting at a later time</li></ul>
------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Advanced Encryption Standard	<ul style="list-style-type: none"><li>• Calls encrypted up to 768 kbps over IP</li><li>• Video, voice, and content presented in the call is secure</li><li>• Communications are confidential and secure</li><li>• Authentication by the National Institutes of Standards means it's credible</li><li>• Built-in, no extra hardware required</li></ul>
------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Enhanced User Environment

Calendar and Call Scheduler	<ul style="list-style-type: none"><li>• Quick and easy access to a monthly calendar with current date and time posting</li><li>• Schedule repeat meetings to dial automatically</li></ul>
-----------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Customizable home page	<ul style="list-style-type: none"><li>• Display only the necessary buttons</li><li>• Unique design to meet your organization's needs</li><li>• Simplified graphical interface for novice users</li><li>• Easy to understand icon driven menu navigation decreases learning curve</li><li>• Leads to increased use of video</li></ul>
------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Dual Monitor Emulation	<ul style="list-style-type: none"><li>• Full size near and far video windows at the same time on a single display</li><li>• Minimal investment, maximum benefit (one display, two screens)</li><li>• Optional modes of display expands usage</li></ul>
------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Interoperability

Interoperates with Polycom Video Products	<ul style="list-style-type: none"><li>• Works with all ViewStation®, iPower™ and VSX video systems</li><li>• Maximize capital investment by continuing to utilize all existing Polycom video installations</li></ul>
-------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Part of the Polycom Office™	<ul style="list-style-type: none"><li>• Remote management through Global Management System™</li><li>• Click &amp; View™ offers a variety of layout templates for a multi-point call</li><li>• Extended conferencing with Polycom PathNavigator™</li><li>• Expand the audience over audio and video with an MGC™ bridge</li><li>• Schedule, invite participants and manage conferences easily with Polycom Conference Suite™</li></ul>
-----------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Standards-based	<ul style="list-style-type: none"><li>• Solid, reliable platform</li><li>• Qualified by independent test labs</li><li>• Interoperates with other vendor's systems</li><li>• Easy to install even in a multi-vendor environment</li></ul>
